Useful **features** in MyTransport.SG

Journey Planner

Plan and find your way around Singapore easily. With live traffic data to optimize routing and multiple transport options, you can reach your destination as quickly as possible.

MRT/LRT

View the MRT/LRT network and useful station information such as train timetables and nearby amenities. Use the interactive fare calculator to calculate your estimated fare and travel time.

Bus Services

Get detailed information about our bus services, including their routes, timetables and the bus stops they stop at.

Bus Arrival Time

Check the estimated arrival times of bus services at any bus stop or interchange and preview the crowded-ness onboard.

Cycling Routes

Want to know where cycling paths and park connectors are? Tap on the Cycling Routes tab to check out the latest paths and plan your journey around Singapore on active mobility devices!

My Notifications

Customize your notification preference to receive alerts on the latest train/bus services updates and important announcements.
