

## Artist Impressions of Holland/ Buona Vista, Bukit Panjang and Pek Kio Friendly Streets

### Holland/ Buona Vista Friendly Streets

*Relocating the signalised pedestrian crossing at Holland Drive closer to the heart of Holland Drive Market & Food Centre will bring more convenience to residents at Holland Vista*

*The new signalised pedestrian crossing at Holland Avenue will have pedestrian priority, allowing for longer crossing times and shorter waiting times*

## Bukit Panjang Friendly Streets

*A distinctive entrance to the Friendly Streets from Bangkit Road signals the transition to a pedestrian-friendly zone*

*New bus-friendly humps to slow down traffic and wider centre medians and kerbless crossings for safer crossings*

## Pek Kio Friendly Streets

*The existing pedestrian crossing across Owen Road will be raised with green coloured road surfaces and longer Green Man crossing times, making it safer for residents to cross the road*

*The existing zebra crossing will be raised with new green strips leading to it. This reminds motorists to slow down and allows pedestrians, especially young children and seniors, to be more visible to motorists when they cross the road*
